

LBS300 L-Bar Heat Sealer

Product description

This economical, bench mounted I-bar sealer is ideal for rapid shrink wrapping, as the dual bars simultaneously seal the film's two open edges. A separate dispenser included with the sealer holds the roll of shrink film in perfect alignment with the sealer for fast and easy operation. The addition of a Pacplus® HAB1500 Hot Air Gun makes this a complete system for low-volume shrink wrapping operations.
