

Cardboard Shredders

Ecopax Cardboard Shredders create void fill from waste cardboard

- > Ecopax Converters turn small quantities of old cardboard into lots of packaging material within a short time.
- > Ecopax Converters create either Void Fill or Protective Matting Material which reduces packaging costs and is ecologically beneficial.
- > Operator-friendly feeding of cartons with punched measuring scale for precise packaging units.
- > Various sizes of cardboard boxes are automatically processed and tailored in a single step.
- > Standard dust extraction device built into most models.

Eco-friendly void fill created from your waste cartons

Protective matting option from your used cartons on demand

The Ecopax cardboard shredder range includes two improved energy-efficient models

All Ecopax shredders still feature all the benefits you expect from this quality brand but the range now includes machines with an equally powerful but lower energy operating system.

Energy-efficient drive technology powered through a frequency inverter gives:

- > High motor torque even at low speeds for more powerful shredding action
- > Low maintenance reduces loss of productivity through downtime
- > Power consumption reduced by 30%!

30%
Energy Saving
over previous Ecopax models but with the same output!

>Standard dust extraction device built into all models (except CP316S2-1)

>New IEC/EN 60204-1 compliant circuit breaker
