

DSOO/ Multifold Shrink Film Shooting

Product description	Polyethylene shrink film folded to a compact roll width of 1mtr, unfolds to 4mtr total width
	Ideal for shrink wrapping awkward-shaped products and machinery Cut from roll to required length
Product data	
~ basic composition	Virgin grade low density polyethylene with production additives
~ colour	Clear
~ folded width	1.0mtr (+/- 10mm)
~ open width	4.0mtr (+/- 10mm)
~ roll weight	16kg
~ film weight	738g per linear mtr
~ film thickness	200mu (+/- 10% average, +/- spot tolerance)
Technical data	
~ shrink ratios	Min. 35% transverse shrink
	Max. 20% machine/transverse differential
