TECHNICAL DATA SHEET

PS007 Multifold Film Sheeting

P3007 Multifold Film Sneeting	
Product description	Polyethylene film folded to a compact roll width of 1mtr, unfolds to 4mtr total width Ideal for wrapping awkward-shaped products and machinery Cut from roll to required length
Product data	
~ basic composition	General regranulated blend polyethylene with production additives
~ colour	Clear
~ folded width ~ open width	1.0mtr (+/- 10mm) 4.0mtr (+/- 10mm)
~ roll weight	17kg
~ film weight	369g per linear mtr
~ film thickness	200mu (+/- 10% average, +/- spot tolerance)
